## STAHY best paper award

The only requirement is that the paper is included in one of the ICSH reference collection lists.

The STAHY Best Paper is the result of evaluation of the first 20 papers, selected among the 238 papers (published in 2009-2010-2011) present in ICSH website and ordered by citations (SCOPUS database, excluding self citations).

The award consists in the IAHS Award Certificate and in the economical support (registration fee and accommodation) for one of the authors that will be invited lecture during the ICSH annual workshop.
